Ryder Corporate Fact Sheet

Ryder System, Inc. (NYSE: R) is a nearly $13 billion leading provider of outsourced logistics and transportation services throughout the United States, Canada, and Mexico. We offer supply chain, dedicated transportation, and fleet management solutions that integrate every step of the supply chain port-to-door, including international inbound flows and cross-border logistics, fleet and transportation management, warehousing, manufacturing support, and multi-channel final delivery. Our business segments provide a broad range of value-added solutions, which provide our customers with seamless, end-to-end logistics networks designed to reduce complexity and improve speed, reliability, and efficiency across the entire flow of goods. Ryder works behind the scenes to connect every link in the supply chain, moving products smoothly from ports and suppliers all the way to customers' doorsteps.

Ryder operates three business segments:

Supply Chain Solutions (SCS) – Optimizes logistics networks to make them more responsive and able to be leveraged as a competitive advantage. Globally recognized brands in the automotive, consumer goods, food and beverage, healthcare, industrial, oil and gas, technology, and retail industries rely on Ryder's leading-edge technologies and world-class logistics engineers to help them deliver the goods that consumers use every day.

Dedicated Transportation Solutions (DTS) – Combines the best of Ryder's leasing and maintenance capabilities with the safest and most professional drivers in the industry. With a dedicated transportation solution, Ryder helps customers increase their competitive position, reduce risk, and integrate their transportation needs with their overall supply chain.

Fleet Management Solutions (FMS) – Provides a broad range of services to help businesses of all sizes, across virtually every industry, deliver for their customers. From leasing, maintenance, and fueling, to rental and used vehicle sales, customers rely on Ryder's expertise to help them lower their costs, redirect capital to other parts of their business, and focus on what they do best – so they can grow.
